

Francisco Beccaria

FRONTEND DEVELOPER

My expertise focuses on turning complex business needs into user-friendly solutions. I have strong skills in clear communication and effective teamwork. I am committed to continuous learning and enjoy learning new challenges and responsibilities. My approach combines technical skills with an understanding of client needs, ensuring high quality and impactful web development projects.

I like to bring a positive, proactive attitude and strong organizational skills. My professional approach is built on practicality and common sense, complemented by solid self-management. Results-oriented and skilled in analytics, I tackle challenges effectively, ensuring goals are met with creativity and efficiency.

KEY SKILLS

- HTML: Emphasis on Semantic Markup, Accessibility, SEO
- CSS: Experience with TailwindCSS, Sass, BEM, Responsive Design, shadcn/ui
- JavaScript: Skilled in React.js, Next.js, TypeScript, Redux, Context, React Query

Additionally, I have experience working with Storybook, ESLint + Prettier, Firebase, Vanilla JavaScript, Ruby on Rails with StimulusJS and Shopify Themes.

PROFESSIONAL EXPERIENCE

Koombea, Colombia

Mar 2021 - Present

Frontend Developer

I mainly worked with technologies such as NextJS, ReactJS, and StimulusJS. I have been involved in a diverse range of projects: business analytics, administrative management, marketplaces and ecommerce.

I have collaborated effectively with cross-functional teams, including working alongside Project Managers and Product Owners (utilizing Jira), Product Designers (using Figma), Backend Developers (primarily with APIs built in Ruby on Rails), DevOps (mainly AWS), Tech Leaders and QA Engineers for feature testing.

EDUCATION

Instituto La Salle, Florida

Mar 2015 - Dec 2018

Electromechanical Technician

Electricity, electronic and mechanics knowledge. Experienced in house electrical installations, troubleshooting, and maintaining complex machinery. Proficient in reading blueprints, performing installations, repairs, and preventive maintenance to ensure safety and efficiency across various systems. Adept at combining mechanical and electronic expertise to ensure seamless operation of equipment in diverse industrial settings.
